INFORMATION FOR THE APPLICANT

1. Continued illegal residence in Norway

NOAS is not part of the Norwegian immigration authorities. If your application for asylum has been rejected and you have missed the deadline for departure, you will still be illegal in Norway, even if your case is under consideration by NOA

2. How we work

The first step for us is to gather the documents necessary for us to consider your situation. We can gather the documents for you by using this power of attorney to request your documents from the immigration authorities, but you might be provided with an advisor faster if you have already gathered your documents before you contact us. You can request your documents from the immigration authorities or from your lawyer. The contact information of the immigration authorities is provided below. More contact information is also available on their websites.

The National Police Immigration Service (PU)

- Phone number: 22 34 24 00
- Website: <https://www.politiet.no/om-politiet/organisasjonen/sarorganene/politiets-utlendingsenhet/>

The Directorate of Immigration (UDI)

- Phone number: 23 35 15 00
- Website: <https://www.udi.no/en/contact-us/>

The Immigration Appeals Board (UNE)

- Phone number: 21 08 50 00
- Website: <https://www.une.no/om-une/kontakt-une/>

The second step is that your case will be provided with an advisor who will look over your documents and see if there is anything that we can help you with. The average processing time varies depending on the case at hand, but the normal processing time for non-urgent cases is six months after your case has been given to an advisor. It might take longer in periods where we experience higher demand than usual or if we have reduced capacity.

Please contact us if you have any questions or new information about your case. Remember also to notify NOAS if you change your address or phone number.
